

DESKTOP MATE

Add-On Products Factory Brief

Product 1: Comfort Rest Set | Product 2: Care Kit

Version v1.1 - July 2026 | Updated with selected reference images

Positioning: Both add-ons should feel like a natural extension of the 900 x 400 mm Desktop Mate desk mat. Keep the design premium, simple, low-risk to manufacture, easy to ship, and strong for bundle attach rate.

1. Executive decision

Product	Role in checkout	Recommended add-on price	Why it fits
Comfort Rest Set	Upsell / bundle builder	+49 to +59 SAR	Visible comfort upgrade. Matches the desk mat and makes the purchase feel like a full setup.
Care Kit	Cross-sell / low-friction add-on	+19 to +29 SAR	Cheap, useful, small, and easy to add at checkout to protect the mat and keyboard.

2. Launch color system

Colorway	HEX	Use on product	Notes
Midnight Black	#111111	Primary launch color for both products	Best universal color. Matches gamer, office, and premium matte desk setups.
Desert Sand	#DAC2A0	Secondary color for Saudi/lifestyle edition	Soft, warm, and distinctive. Use with charcoal logo/accents.
Saudi/Najdi Olive	#32453B	Optional limited drop	Use later if first two colors sell well. Keep gold/sand accent.
Sand Gold Accent	#C3A05A	Logo, line detail, packaging accent	Use lightly. It should feel premium, not flashy.

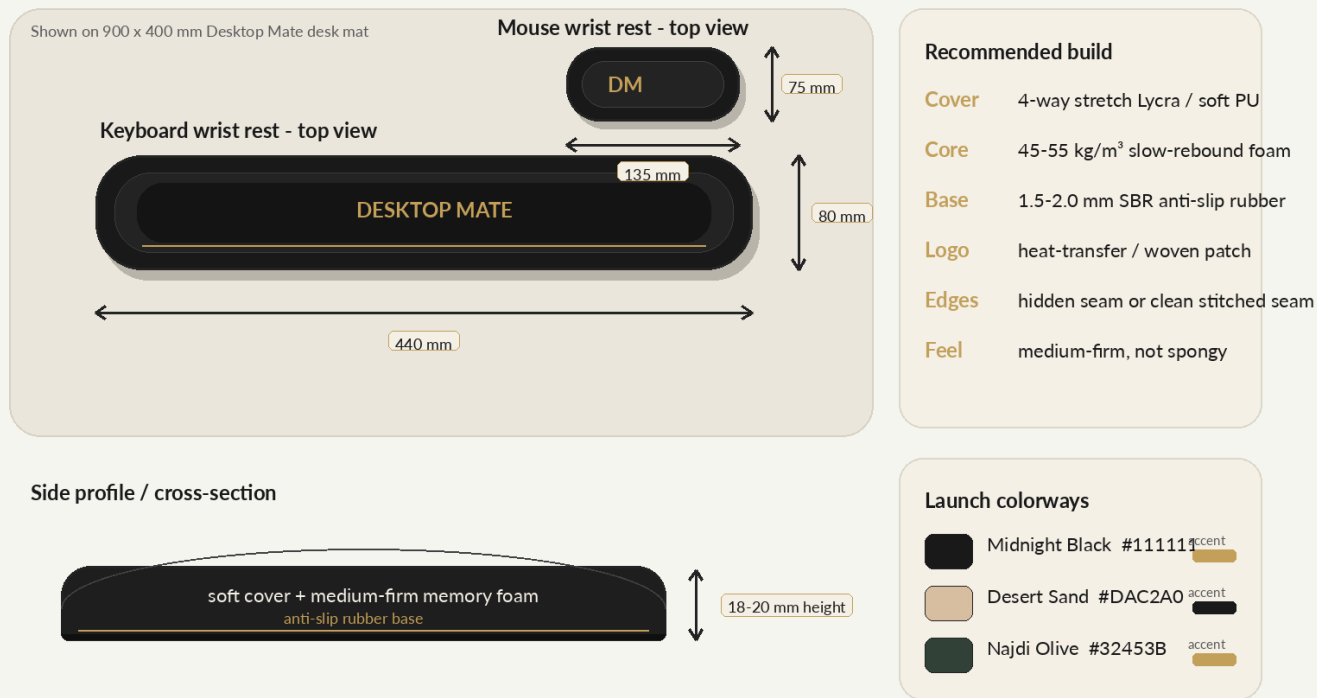

- First production suggestion: 70% Midnight Black, 30% Desert Sand. Do not launch too many SKUs at once.
- Logo should be subtle: small center logo or corner logo, never large enough to compete with the desk mat design.
- Reference photos in this brief are for product direction only. Do not copy third-party logos, brand names, exact graphics, or patented details. Final samples must use Desktop Mate original colors, branding, and packaging.

3. Product 1 - Desktop Mate Comfort Rest Set

Recommended product structure: 1 keyboard wrist rest + 1 separate mouse wrist rest. The keyboard rest is the hero item. The mouse rest can be included in the standard bundle, but for Pro/gaming bundles offer an optional keyboard-rest-only version because some FPS gamers prefer unrestricted mouse movement.

Product 1: Desktop Mate Comfort Rest Set

Factory sketch - top view, side profile, materials, and color direction

Note: sketch is original concept direction, not a copied product image.

Original concept sketch for factory communication

Selected reference photo - raised bump foam texture

Reference only: raised soft bump texture, rounded capsule shape, separate keyboard and mouse wrist rests. Do not copy exact product/logo.

- Use a low, soft raised-bump pattern on the wrist-contact surface to make the upsell feel visibly more comfortable.
- Keep the perimeter rounded and the bottom anti-slip; avoid any sharp seam or hard logo patch where the wrist touches.
- Request two samples: smooth-top version and raised-bump version. Choose the one that feels best after 30 minutes of typing.

3.1 Manufacturing specification

Item	Required specification
Keyboard wrist rest size	440 x 80 x 18-20 mm. Acceptable tolerance: ± 3 mm length/width, ± 2 mm height.
Mouse wrist rest size	135 x 75 x 18-20 mm. Separate piece; do not attach to a mouse pad.
Shape	Minimal capsule / rounded rectangle with softly raised cushion and rounded perimeter lip. No cloud/cartoon shape for first production.
Top cover	Preferred: 4-way stretch Lycra/polyester fabric, 180-220 gsm, soft touch, low-lint, colorfast. Texture direction: raised rounded bump/grid surface inspired by the reference photo; bumps must feel soft, not sharp.
Core foam	Slow-rebound memory foam, medium-firm. Target density 45-55 kg/m ³ . Rebound should feel supportive, not overly soft.
Base layer	1.5-2.0 mm SBR/natural rubber anti-slip base, black. Must grip on wood desk and on desk mat fabric.
Edge finish	Hidden seam preferred. If stitched, use clean black/tonal stitching with no loose threads.
Branding	Small DESKTOP MATE logo in Sand Gold or charcoal. Heat-transfer, woven patch, or embossed logo. Center tolerance ± 2 mm.
Odor requirement	No strong chemical smell after 24 hours in open air. Supplier must confirm low-odor foam/glue.
Packaging	Slim kraft or matte black tuck box. Include one bilingual instruction card: English + Arabic.
Raised bump texture	Low rounded bump grid on wrist-contact area. Target bump height: 2-3 mm above surrounding surface, soft radius edges, no hard pressure points. Supplier should provide one smooth-top sample and one bump-texture sample for comparison.

3.2 Comfort and usability requirements

- Height should sit around 18-20 mm to support common office keyboards and low/medium-profile mechanical keyboards.
- Front and back edges must be gently rounded so the wrist does not feel a hard edge.
- Mouse wrist rest should be small and independent so the user can move it or remove it easily.
- Top fabric should not create lint on the desk mat and should be easy to wipe with a slightly damp cloth.
- Base should not curl. Reject samples with warped edges after unpacking.

3.3 SKU direction

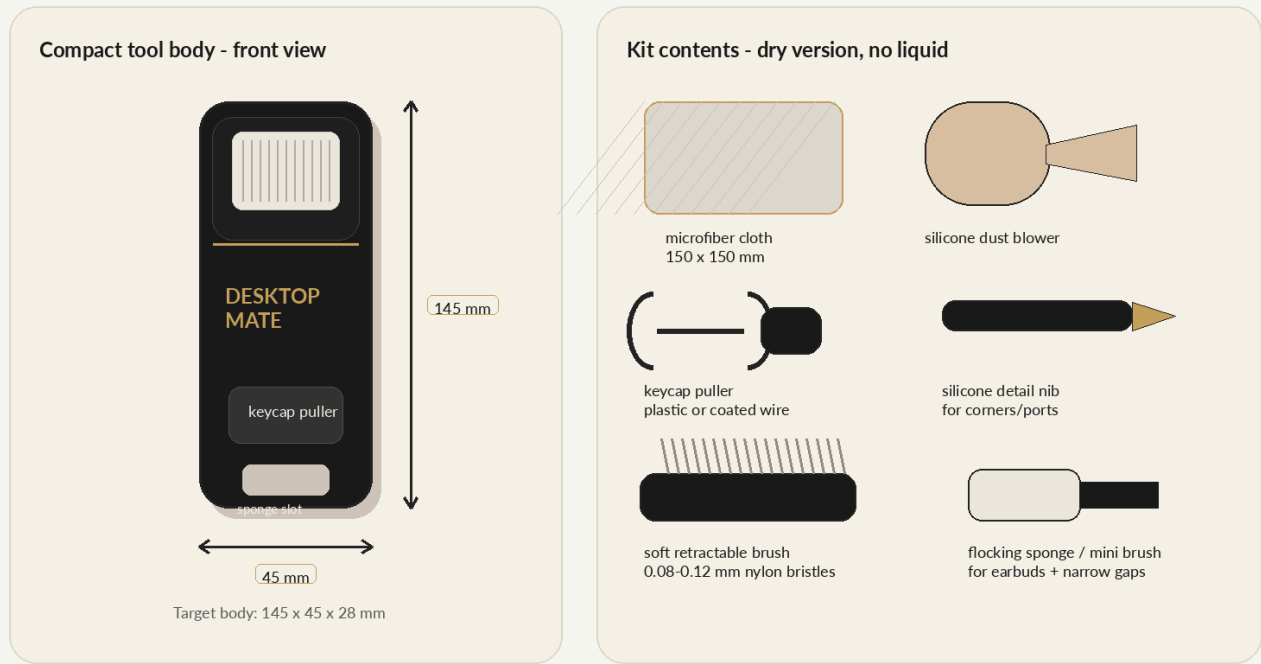

SKU	Color	Contents	Use
DM-CRS-BLK	Midnight Black + Sand Gold logo	Keyboard rest + mouse rest	Main upsell for Standard desk mat.
DM-CRS-SND	Desert Sand + charcoal logo	Keyboard rest + mouse rest	Lifestyle/design-focused bundle.
DM-KR-PRO-BLK	Midnight Black + minimal logo	Keyboard rest only	Pro/gaming bundle where mouse rest may be unwanted.

4. Product 2 - Desktop Mate Care Kit

Recommended product structure: A compact dry electronics/desk-mat cleaning kit. Keep it small, low-cost, and easy to include at checkout. Do not include cleaning liquid in the first version.

Product 2: Desktop Mate Care Kit

Factory sketch - dry, compact desk-mat and keyboard cleaning add-on

Factory instruction: keep the kit DRY. Do not include cleaning liquid. If a standard mold has a spray bottle, supply empty or replace it with the microfiber cloth/blower.

Selected reference photos - 7-in-1 dry cleaning kit direction

DAORANGE

7 in 1 Electronic Cleaner Kit

Reference only: compact vertical 7-in-1 cleaning kit visual direction with brush body and removable tools.

Useful parts map: silicone tip, mini brush, sponge, large brush, cloth swipe, keycap puller, and empty spray-bottle-style tube.

- Use this as functional inspiration only. Remove the DAORANGE logo and create an original Desktop Mate layout and colorway.
- Preferred first version is dry: no cleaning liquid. The empty spray-bottle-style tube is optional; microfiber/blower can replace it.
- Target a small matte charcoal body with Sand Gold logo so it feels like part of the Desktop Mate ecosystem.

4.1 Manufacturing specification

Item	Required specification
Main tool body	Approx. 145 x 45 x 28 mm. Matte ABS or PP shell. Tolerance: ± 2 mm.
Color	Matte charcoal body with Sand Gold logo. Optional Desert Sand body with charcoal logo.
Large brush	Soft retractable nylon brush. Bristle diameter target 0.08-0.12 mm, no shedding during pull test.
Detail nib	Silicone nib for corners/ports, Shore A 45-55, rounded tip, no sharp edges.
Flocking sponge	Small sponge for narrow gaps and earbuds case cleaning. Must not crumble or shed dust.
Keycap puller	Plastic or coated wire. No sharp burrs. Safe for common mechanical keycaps.
Microfiber cloth	150 x 150 mm, 180-220 gsm. Charcoal, sand, or off-white. Add small woven logo tab if possible.
Dust blower	Small silicone blower, optional if cost target allows. If included, use same color family.
Liquid policy	No cleaning liquid in first production. If supplier uses a standard spray-bottle-style tube, supply it empty and mark it as empty in packing; preferred alternative is to replace liquid with microfiber cloth/blower to reduce leakage risk.
Packaging	Small matte box or kraft box + clear recyclable inner tray. Include bilingual quick-use card.
Reference body direction	Compact vertical brush-body kit similar in function to the reference image, but redesigned with Desktop Mate branding, matte charcoal/sand colors, and no third-party logo.

4.2 Kit content priority

Priority	Component	Keep / remove decision
Must have	Large soft brush	Core cleaning function for keyboard + desk surface.
Must have	Microfiber cloth	Directly linked to desk mat care and screen/desk wipe-down.
Must have	Keycap puller	Makes the kit feel more useful for keyboard users.
Must have	Silicone detail nib	Good for corners, keyboard gaps, and small device ports.
Nice to have	Small silicone dust blower	Adds perceived value, but remove if it breaks cost target.
Avoid first run	Cleaning liquid / filled spray bottle	Avoid filled liquid. Empty bottle is acceptable only if useful for perceived value and clearly supplied empty.

4.3 SKU direction

SKU	Color	Contents	Use
DM-CK-BLK	Matte charcoal + Sand Gold logo	Dry kit with microfiber cloth	Main checkout cross-sell.
DM-CK-SND	Desert Sand + charcoal logo	Dry kit with microfiber cloth	Design/lifestyle bundle.
DM-CK-PRO	Matte charcoal	Dry kit + blower + premium cloth	Higher perceived value in Pro bundle.

5. Packaging and insert copy

Area	Comfort Rest Set	Care Kit
Box size target	Approx. 460 x 95 x 30 mm for rest set. Ask factory for packed dimensions and carton quantity.	Approx. 160 x 60 x 35 mm. Keep it small enough for easy bundle packing.

Material	Matte black box or kraft box, 300-350 gsm paperboard.	Matte black/kraft box, 300-350 gsm paperboard, optional inner tray.
Front copy	Complete your setup. Comfort for long work and gaming sessions.	Keep your setup clean. Dry kit for desk mat, keyboard, and everyday devices.
Arabic line	كَمَل السِت أب براحة أكثر.	حافظ على نظافة السِت أب.
Insert card	Care: wipe fabric gently; do not machine wash; air dry only.	Care: use brush first, then microfiber cloth; no liquid required.

6. Quote request to send to factory

- Please quote MOQ 500 / 1,000 / 3,000 pcs for each SKU.
- Quote EXW unit price, sample cost, tooling/custom mold cost if any, and estimated lead time.
- Confirm materials, packed dimensions, carton dimensions, carton weight, and units per carton.
- Confirm customization options: logo method, fabric color matching, Pantone/HEX matching, packaging print, barcode sticker.
- Send photos/videos of similar products already produced and factory certifications available.
- For the Care Kit: confirm no cleaning liquid will be included in the shipment.

7. Sample approval checklist

Checkpoint	Pass criteria
Visual finish	No glue marks, stains, scratches, warped edges, or loose threads. Logo centered and clean.
Color match	Matches approved color sample. No major variation between pieces in one batch.
Comfort Rest foam	Medium-firm support; returns to shape after compression; no hard internal ridges.
Comfort Rest base	Does not slide easily on wood desk or on desk mat fabric. Corners do not curl after unpacking.
Care Kit brush	Brush retracts smoothly; bristles are soft and do not shed.
Care Kit safety	No sharp burrs, no leaking liquid, no loose parts that fall out during normal use.
Packaging	Product fits box tightly enough not to rattle heavily; box protects product during shipping.
Bundle fit	Both products visually match Desktop Mate and photograph well together.

8. Recommended first sample order

Product	Sample request
Comfort Rest Set	2 pcs Midnight Black smooth-top set, 2 pcs Midnight Black raised-bump set, 2 pcs Desert Sand raised-bump set, 2 pcs keyboard-rest-only Pro version.
Care Kit	3 pcs Matte Charcoal dry kit, 2 pcs Desert Sand dry kit, 2 pcs Pro kit with blower, and 1 sample with empty spray-bottle-style tube only.
Packaging	1 printed box mockup for each main SKU + 1 insert card mockup.

Final instruction to factory: Please do not copy any reference product image directly. Use this brief as the functional and visual direction. Final artwork, colors, logos, package design, and component layout must be original to Desktop Mate. All care-kit shipments must contain no cleaning liquid unless separately approved in writing.
